

(Formerly known as The Royal Bank of Scotland plc - India Branch) (Incorporated in Scotland with Limited Liability)

INDEPENDENT AUDITOR'S REPORT TO THE CHIEF EXECUTIVE OFFICER Natwest Markets Plc - India Branch (Formerly known as The Royal Bank of Scotland plc -India Branch)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Natwest Markets Plc - India Branch (Formerly known as The Royal Bank of Scotland plc - India Branch) ("the Bank"), which comprise the Balance Sheet as at March 31, 2020, the Profit and Loss Account, Cash Flow Statement for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Banking Regulation Act. 1949 as well as the Companies Act, 2013 ("the Act") in the manner so required for Banking Companies and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Bank as at March 31, 2020 and its profit and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

Emphasis of Matter

We draw attention to Note 2 and 2.1 of Schedule 17 and Note 2.19 of Schedule 18 to the financial statements which states that the Bank has filed an application with the Reserve Bank of India (RBI) to close down its banking business and operation with effect from December 31, 2019 and to surrender its banking license in India. Accordingly, the Bank will cease to be a going concern and consequently the financial statements are prepared under liquidation basis of accounting. Our opinion is not modified in respect of this matter

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Bank's Executive Committee is responsible for the other information. The other information comprises the Pillar 3 Disclosure

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Responsibilities of Management and Those charged with Governance for Financial Statements

The Bank's Management is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Bank in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act and provisions of Section 29 of the Banking Regulation Act, 1949 and circulars, guidelines and directions issued by the Reserve Bank of India from time to time as applicable to Bank. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Bank's ability to continue as a going concern. Accordingly, the Management, has decided to liquidate the Bank based on its assessment and has prepared the financial statements as on March 31, 2020 on liquidation basis, as the Bank ceases to be a going concern

The Management is also responsible for overseeing the Bank's financial reporting process

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Bank has internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

The Bank is a Banking Company as defined under Banking Regulation Act, 1949. Accordingly, the requirements prescribed under section 197 of the Companies Act, 2013 do not apply; and

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
- The Bank has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Schedule 12(I) to the financial statements;
- ii. The Bank did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses: and
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Bank

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF NATWEST MARKETS PLC - INDIA BRANCH (FORMERLY KNOWN AS THE ROYAL BANK OF SCOTLAND PLC - INDIA BRANCH)

[Referred to in paragraph 3(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the Members of Natwest Markets Plc - India Branch (Formerly known as The Royal Bank of Scotland plc - India Branch) ("the Bank") on the Financial Statements for the year ended March 31, 2020]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Natwest Markets Plc - India Branch (Formerly known as The Royal Bank of Scotland plc - India Branch) ("the Bank") as of March 31, 2020 in conjunction with our audit of the financial statements of the Bank for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Bank's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Bank's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls with reference to financial statements

Meaning of Internal Financial Controls With reference to Financial Statements

A Bank's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Bank's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Bank; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Bank are being made only in accordance with authorizations of management and directors of the Bank; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Bank's assets that could have a aterial effect on the financial statements

Inherent Limitations of Internal Financial Controls With reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate

Opinion

In our opinion, the Bank has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2020, based on the internal control with reference to financial statements criteria established by the Bank considering the essential

Cash and cash equivalents includes the following

31 March 2020 31 March 2019 (Rs. in 000's) (Rs. in 000's)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. As we have concluded that a material uncertainty exists, as the management of the Bank has filed an application with the RBI to close down its banking business and operation w.e.f. from December 31, 2019 and surrender its banking license in India, we have drawn attention in our auditor's report with respect to the fact that the Bank ceases to be a going concern. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Report on Other Legal and Regulatory Requirements

- 1. The Balance Sheet and the Profit and Loss Account have been drawn up in accordance with the provisions of Section 29 of the Banking Regulation Act, 1949 read with Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.
- 2. As required by sub-section 3 of Section 30 of the Banking Regulation Act, 1949, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and have found them to be satisfactory;
- b) The transactions of the Bank, which have come to our notice during the course of our audit, have been within the powers of the Bank;
- c) Since the key operations of the Bank are automated with the key applications integrated to the core banking system, the audit is carried out centrally at Mumbai as all the necessary records and data required for the purposes of our audit are available therein.

3. As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our nowledge and belief were necessary for the purposes of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Bank so far as it appears from our examination of those books;
- c) The Balance Sheet, the Profit and Loss Account and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent they are not inconsistent with the accounting policies prescribed by the Reserve Bank of India:
- e) The requirement of Section 164(2) of the Companies Act, 2013 are not applicable to the Bank considering it is a branch of The Royal Bank of Scotland Group plc, which is incorporated with limited liability in Scotland
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Bank and the operating effectiveness of such controls, refer to our separate Report in "Annexure A";
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended

SCHEDULE 17: SIGNIFICANT ACCOUNTING POLICIES

Background

The accompanying financial statements for the year ended 31 March 2020 comprise Balance Sheet as at 31 March 2020, Profit and Loss Account and Cash Flow Statement for the year ended 31 March 2020 of the Natwest Markets plc - India branch (formerly known as The Royal Bank of Scotland plc - India branch) ('the Bank') which is incorporated in Scotland with limited liability

Basis of preparation

The financial statements have been prepared in accordance with requirements prescribed under the Third Schedule (Form A and Form B) of the Banking Regulation Act, 1949. The accounting and reporting policies of the Bank used in the preparation of these financial statements conform to Generally Accepted Accounting Principles in India ("Indian GAAP"), the auidelines issued by the Reserve Bank of India ('RBI') from time to time, the Accounting Standards notified under Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014 and Companies (Accounting Standards) Amendment Rules, 2016 to the extent applicable and practices generally prevalent in the banking industry in India. Except for Accounting Standard 1 on "Disclosure of Accounting Policies' in respect of the going concern assumption, which as mentioned in paragraph 2.1 below, is no longer valid for the Bank. The Bank follows the accrual method of accounting and the historical cost convention, unless otherwise stated. The accounting policies followed in the financial statements are those followed in the annual financial statements, as of 31 March 2019.

2.1. Going Concern

The Bank has filed an application with RBI to close its business and operations with effect from close of business on 31 December 2019.

Accordingly, these financial statements have been prepared based on the assumption that the fundamental accounting assumption of going concern is no longer appropriate. Consequently, all assets have been valued at net realisable value or book value, whichever is lower, and liabilities have been reflected at the values at which they are expected to be discharged. Use of estimates

any, is ignored. Book value of individual securities is not changed consequent to periodical valuation of Investments

In the event, provisions created on account of depreciation in AFS or HFT categories are found to be in excess of the required amount in any year, excess is credited to Profit and Loss Account and excess is thereafter appropriated (net of taxes, if any and net of transfer to Statutory Reserve as applicable) to Investment Reserve Account.

Profit or loss on sale of securities is computed on the basis of weighted average cost. Market price of securities is sourced from revaluation rates published by the Financial Benchmark India Pvt. Ltd. ('FBIL').

Treasury Bills, Commercial Paper and Certificates of Deposit, being discounted instruments. are valued at carrying cost

Accounting for repurchase/reverse repurchase transactions

Securities sold under agreements to repurchase (Repos) and securities purchased under agreements to resell (Reverse Repos) are accounted as collateralised borrowing and lending transactions respectively. Difference between consideration amount of first leg and second leg of repo is recognised as interest income/interest expense over the period of transaction

4.2. Advances and Provisions/write-offs

Advances are classified as performing and non-performing advances ("NPA") in accordance with the RBI prudential norms on classification. Further, NPAs are classified into sub-standard, doubtful and loss assets based on the criteria stipulated by the RBI.

Advances are stated net of specific provisions, interest in suspense, provision for impaired assets, Export Credit Guarantee Corporation Limited ('ECGC') claims and bills rediscounted and provisions in lieu of diminution in fair value of restructured assets

Specific loan loss provisions in respect of non-performing advances are made based on Management's assessment of the degree of impairment of advances after considering prudential norms on provisioning as prescribed by the RBI.

In the case of consumer loans, provisions are made upon reaching specified stages of delinquency under each type of loan after considering prudential norms on provisioning prescribed by the RBI.

As per the RBI guidelines, a general provision is required to be made on all standard advances based on the category of advances and additionally on Unhedged Foreign Currency Exposure of borrowers. These provisions are made in line with the RBI guidelines and are disclosed under Schedule 5 - 'Provisions on Standard Assets'.

Provision for restructured assets is made in accordance with applicable requirements prescribed by the RBI on restructuring of advances by banks. Necessary provision for diminution in the fair value of a restructured account is made. Restructuring of an account is done at a borrower level.

Amounts recovered against debts written-off in earlier years and provisions no longer considered necessary in the context of current status of borrower are recognised in Profit and Loss Account

Further to provisions required as per asset classification status, provisions are held for individual country exposure as per the RBI guidelines. Exposure is classified in seven risk categories as per the Bank's internal ratings

4.3. Transactions involving foreign exchange

Monetary assets and liabilities denominated in foreign currency are translated into Indian rupees at the year-end exchange rates notified by the Foreign Exchange Dealers' Association of India ('FEDAI') and resulting profit/loss from year-end revaluation are recognised in Profit and Loss Account

Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using exchange rate at the date of transaction. Non-monetary items which are measured at fair value or other similar valuation denominated in a foreign currency are translated using exchange rate at the date when such value was determined

Outstanding forward exchange contracts are revalued at exchange rates notified by FEDAI for specified maturities and at extrapolated rates for contracts of intervening maturities. The foreign exchange contracts of longer maturities where exchange rates are not notified by FEDAI are revalued at exchange rates implied by the USD/INR Currency Swap curve. The resultant gains or losses are recognised in Profit and Loss Account.

Income and expenditure in foreign currency are translated at exchange rates prevailing or the date of transaction

Contingent liabilities denominated in foreign currencies are disclosed at closing rates o exchange notified by FEDAI.

4.4 Derivative instruments

Derivative instruments include foreign currency options, interest rate swaps ('IRS'), cross currency interest rate swaps ('CCS') and forward rate agreements ('FRA') which are undertaken for trading or hedging purposes. Derivatives undertaken for trading purposes are measured at their fair value and resultant gain or loss is recognised in Profit and Loss Account.

The Bank treats all derivatives (except for derivative transactions that are undertaken for hedging are accounted on accrual basis) which include all customer and proprietary transactions together with any associated hedges and trades done for hedging Balance Sheet as 'trading' derivatives.

Derivatives are classified as assets under Schedule 11 - 'Other Assets' when the fair value is positive (positive marked to market) or as liabilities Schedule 5 - 'Other Liabilities' when fair value is negative (negative marked to market).

Changes in fair value of derivatives other than those designated as hedges are recognised in Profit and Loss Account.

Pursuant to the RBI guidelines, any receivables under derivative contracts which remain overdue for more than 90 days and mark-to-market gains on other derivative contracts with same counter-parties are reversed through Profit and Loss Account.

Revenue recognition 4.5

Income is recognised to the extent that it is probable that the economic benefits will flow to the Bank and income can be reliably measured.

Interest income is recognised in Profit and Loss Account on an accrual basis except in case of interest on NPA, where it is recognised on receipt basis as per the income recognition and asset classification norms of the RBI and relevant Accounting Standards.

Loan processing fee is accounted for upfront when it becomes due.

Commission on letters of credit is recognised at the inception of the transaction. Commission income on guarantees is recognised on a straight-line basis over the period of the guarantee in the commission received is greater than INR equivalent of GBP 10,000. Income on discounted instruments is recognised over the tenure of instrument on a constant yield basis

All other fees are accounted for as and when they become due.

4.6. Fixed assets and depreciation

Fixed assets are stated at historical cost less accumulated depreciation and provision for

The preparation of financial statements in conformity with Indian GAAP requires Management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and disclosures of contingent liabilities as at the date of financial statements. Management believes that the estimates used in preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in the current and future years. (Also, refer to paragraph 2.1 above).

4. Significant accounting policies

4.1. Investments

Recognition and Classification

Investments are accounted for in accordance with the extant RBI guidelines on investment classification and valuation.

Investments are classified into the following three categories

- Held to Maturity ('HTM')
- Held for Trading ('HFT'); and
- Available for Sale ('AES')

Under each classification, Investments are further categorised as (a) Government Securities, (b) Other Approved Securities, (c) Shares, (d) Debentures and Bonds, (e) Subsidiaries and Joint Ventures and (f) Others.

For disclosure in Balance Sheet, Investments are classified under above mentioned six categories.

The Bank follows trade date method of accounting for purchase and sale of investments, except for Government of India and State Government securities where settlement date method of accounting is followed in accordance with RBI guidelines.

Acquisition cost/carrying cost

Cost of investment represents acquisition cost and in case of discounted instruments, carrying cost includes pro rata discount accreted for the holding period. Accretion on Treasury Bills is calculated on weighted average cost method.

Brokerages, commission, broken period interest, etc. on debt instruments, paid at the time of acquisition, are charged to Profit and Loss Account

Disposal of Investments

- Investments classified as HFT or AFS Profit or loss on sale/redemption is included in Profit and Loss Account
- Investment classified as HTM Profit on sale/redemption of Investments is included in Profit and Loss Account and is appropriated to Capital Reserve after adjustments for tax and transfer to Statutory Reserve. Loss on sale/redemption is charged to Profit and Loss Account.

Transfer between categories

Transfer of securities between categories of Investments is carried out in accordance with the RBI guidelines and accounted for at the lower of acquisition cost, book value and market value on the date of transfer and depreciation, if any, on such transfer is fully provided for.

Valuation/income recognition

Investments classified under HTM category are carried at their acquisition cost or at amortised cost, if acquired at a premium over the face value. Any premium paid on acquisition in excess of face value is amortised over the period remaining to maturity on a straight-line basis. Discount, if any, is ignored. A provision is made for other than temporary diminution in the value of HTM security.

Investments classified under AFS category are marked-to-market on a quarterly or at more frequent intervals and net depreciation, if any, in each classification as mentioned in Schedule 8 - 'Investments' is recognised in Profit and Loss Account. Net appreciation, if any, is ignored. Book value of individual securities is not changed consequent to periodical valuation of Investments.

Investments classified under HFT category are marked-to-market on a monthly or at more frequent intervals and net depreciation, if any, in each classification as mentioned in Schedule 8 - 'Investments' is recognised in Profit and Loss Account. Net appreciation, if

impairment, if any. Cost includes freight, duties, taxes and incidental expenses related to acquisition and installation of asset. Historical cost for this purpose includes written down value as at 31 March 1991 for fixed assets acquired up to that date and the cost of acquisition for fixed assets acquired thereafter.

Depreciation is provided on a pro-rata basis on a Straight Line Method over estimated useful life of the assets which is lower than useful life prescribed under Schedule II of the Companies Act, 2013 in order to reflect actual usage of the assets. Estimates of useful lives of the assets are based on Management estimate, taking into account the nature of asset, estimated usage of asset, and operating conditions surrounding the use of asset etc. Based on above, useful life of the assets has not undergone a change on account of transition to the Companies Act, 2013.

Asset Type	Estimated Useful Life in Years
Premises	50
Improvement of leasehold premises	Over the primary period of lease subject to maximum of 5 years
Furniture and fixtures	5
Other equipment	5
Vehicles (including leased assets)	3
Computer Equipment (including software)	3

All fixed assets individually costing less than Rs 5,000 are fully depreciated in the year of acquisition. Assets which are held for disposal are not depreciated

(If Management's estimate of remaining useful life on a subsequent review is shorter, then depreciation is provided at a higher rate.)

4.7. Leases

Operating Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership over the lease term are classified as operating leases. Operating lease rentals are recognised as an expense in Profit and Loss Account on a straight-line basis over the lease period

4.8. Employee Benefits

Provident fund

The Provident Fund Plan of the Bank is a defined contribution scheme. The Bank's contributions paid/payable towards Provident Fund are charged to Profit and Loss Account every year. This fund and the scheme there under is recognised by the Income-tax authorities and administered by various trustees.

Gratuity and Pension

The Bank has defined benefit plans for post-employment benefits in the form of Gratuity and Pension which is partly funded. Provisions for gratuity and pension which are defined benefit schemes are made on the basis of an independent actuarial valuation carried out as per Projected Unit Credit Method as at the year end. Fair value of plan assets are compared with liabilities and shortfall, if any, is provided in financial statements.

Deferred Bonus Scheme

The Bank accounts for its defined benefit obligation for non-funded deferred bonus benefits on the basis of an independent actuarial valuation as per Projected Unit Credit Method carried out as at the year end.

Compensated absences

Liability for long term compensated absences for employees is accounted on the basis of an independent actuarial valuation as per Projected Unit Credit Method carried out as at the year end. Unutilised short term compensated absences are provided for on an undiscounted basis.

Long Service Award

Liability for long term service award for employees is accounted on the basis of an independent actuarial valuation as per Projected Unit Credit Method carried out as at the year end.

Actuarial gains/losses are immediately recognised in Profit and Loss Account

Other short term employee benefits are recognised on an undiscounted basis on their likely entitlement thereof.

(Formerly known as The Royal Bank of Scotland plc - India Branch) (Incorporated in Scotland with Limited Liability)

4.9. Income taxes

Income tax comprises current tax provision and net change in deferred tax asset or liability in the year.

Current tax expense and deferred tax expense is determined in accordance with the provisions of the Income Tax Act, 1961 and as per Accounting Standard 22 – Accounting for Taxes on Income specified under section 133 of the Companies Act, 2013, as applicable. Deferred tax assets and liabilities arising on account of timing difference are recognised in Profit and Loss Account and cumulative effect thereof is reflected in Balance Sheet. Deferred tax assets are recognised only if there is a reasonable certainty that they will be realised, except for deferred tax assets in respect of unabsorbed depreciation and carry forward losses which are only recognised to the extent that it is virtually certain that they will be realised. Deferred tax assets and liabilities are measured using the tax rates that have been enacted or substantively enacted by Balance Sheet date. Effect on deferred tax assets and liabilities of a change in tax rates is recognised in Profit and Loss Account in the period of change.

4.10. Provisions, contingent liabilities and contingent assets

The Bank has assessed its obligations arising in the normal course of business, including pending litigations, proceedings pending with tax authorities and other contracts including derivative and long term contracts. In accordance with Accounting Standard-29 on 'Provisions ,Contingent Liabilities and Contingent Assets', the Bank recognises a provision for material foreseeable losses when it has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted (except for retirement benefits) to their present values and are determined based on best estimate required to settle the obligation at Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect current best estimates.

Contingent liabilities are disclosed when there is a possible obligation or present obligation that may but probably will not require an outflow of resources embodying economic benefits. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised or disclosed in financial statements

4.11. Impairment

The carrying amounts of assets are reviewed at each Balance Sheet date for any indication of impairment based on internal/external factors. An impairment loss is recognised wherever carrying amount of an asset exceeds its recoverable amount. Recoverable amount is greater of asset's net selling price and "value in use". After impairment, depreciation is provided on revised carrying amount of asset over its remaining useful life. If at Balance Sheet date, there is an indication that a previously assessed impairment loss no longer exists, recoverable amount is reassessed and asset is reflected at recoverable amount subject to a maximum of depreciable historical cost.

4.12. Cash and cash equivalents

Cash and cash equivalents include cash in hand and in ATM/in transit, balances with RBI, balances with other banks and money at call and short notice (including the effect of changes in exchange rates of cash and cash equivalents in foreign currency).

4.13. Cash Flow Statement

Cash Flows are reported using indirect method, whereby profit/(loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flows from operating, investing and financing activities of the Bank are segregated based on the available information.

4.14. Segment Reporting

The Bank operates in three segments viz. Treasury, Retail Banking and Corporate and Wholesale Banking. These segments have been identified in line with the RBI guidelines and AS-17 on Segment Reporting after considering the nature and risk profile of the products and services, target customer profile, organisation structure and internal reporting system of the Bank.

Segment revenue, results, assets and liabilities include amounts identifiable to each of the segments as also amounts allocated, as estimated by Management. Assets and liabilities that cannot be allocated to identifiable segments are grouped under unallocated assets and liabilities.

SCHEDULE 18 : NOTES TO FINANCIAL STATEMENTS

1. Statutory disclosures as per the RBI guidelines

1.15. Non-performing Non-SLR investments

There are no Non-performing Non-SLR investments as at 31 March 2020 (Previous Year: Nil).

1.16. Particulars of Accounts Restructured

There were no restructured accounts as at 31 March 2020 (Previous year: Nil).

1.17. Resolution of Stressed Assets

The Bank has nil advances as on March 31, 2020 and March 31, 2019. Accordingly there were no accounts forming part of the Resolution Plan implemented in accordance Prudential Framework for Resolution of Stressed Assets circular dated June 07, 2019 issued by the RBI. (Previous year: Nil). Further basis this, no disclosure is required under circular COVID19 Regulatory Package – Review of Resolution Timelines vide ref no. DOR.No.BP. BC.62/21.04.048/2019-20 dated April 17 issued by the RBI.

1.18. Securitisation Transactions

There were no securitisation transactions entered during the year ended 31 March 2020 (Previous Year: Nil).

1.19. Single and group borrower exposures

During the year, the Bank has complied with the RBI guidelines on Single borrower limit (SBL) and Group borrower limit (GBL). During the year ended 31 March 2020 and for the year ended 31 March 2019, the Bank's credit exposures to all Single & Group borrowers were within prudential exposure limits prescribed by the RBI.

1.20. Country Risk

As per the extant RBI guidelines, country exposure of the Bank based on the Bank's internal ratings is categorised into various risk categories listed in the following table: (Rs. in 000's)

	31 Mar	ch 2020	31 March 2019				
Risk Category	Exposure (net)	Provision held	Exposure (net)	Provision held			
Insignificant	Nil	Nil	22,855	Nil			
Low	17,132,306	42,829	15,709,924	39,264			
Moderate	Nil	Nil	Nil	Nil			
High	Nil	Nil	Nil	Nil			
Very High	Nil	Nil	Nil	Nil			
Restricted	Nil	Nil	Nil	Nil			
Off-Credit	Nil	Nil	Nil	Nil			
Total	17,132,306 42,829		15,732,779	39,264			

Exposure also includes exposure of the Bank to its Head Office and its branches. In terms of the RBI Circular, provision is made for only those countries where net funded exposure is not less than 1 percent of total assets.

1.21. Provisions and contingencies charged to Profit and Loss Account comprises of

	(Rs. in 000's				
Particulars	31 March 2020	31 March 2019			
Provision towards NPA's (net of write backs)	Nil	(1,147,367)			
Provision towards Standard Assets (including provision on UFCE) (Refer Schedule 18-1.27)	Nil	Nil			
Debts written off	Nil	1,147,367			
Income Tax	(58,907)	168,759			
Deferred Tax	(15,395)	12,488			
Provision for Country Risk Exposure	3,566	2,389			

* No outstanding deposits and advances as at 31 March 2020.

- 1) For computation of ratios in (i), (ii), (iii) and (iv), working funds represent monthly average of total assets as reported to the RBI in DSB returns
- 2) For computation of ratios in (v), deposits (excluding Inter-bank deposits) plus advances as at year end have been considered
- For computation of ratios in (v) and (vi), number of employees as at year end have been considered
- 4) Operating profit = Interest Income + Other Income Interest expenses Operating expenses.

1.3. Derivative instruments

The Bank has not undertaken any derivative and forward exchange transaction during the year ended 31 March 2020 (Previous Year: Nil) and hence no disclosure is made.

1.4. Investments (Rs. in 000's)

The above information regarding customer complaints have been identified on the basis of information available with the Bank.

1.23. Penalties

During the year, no penalty was imposed by the RBI (Previous Year: Nil).

1.24. Floating Provisions

The Bank has not created any floating provisions during the year. (Previous Year: Nil).

1.25. Letter of Comforts

The Bank has not issued any Letter of Comforts (LOCs) during the year and there are no LOCs outstanding as at 31 March 2020 (Previous Year: Nil).

1.26. Depositor Education and Awareness Fund (DEAF) (Rs. in 000's)

Particulars	31 March 2020	31 March 2019
Opening Balance of amount transferred to DEAF	574,162	501,363
Amount transferred during the year	91,914	90,610
Amount reimbursed by DEAF towards claims	6,480	17,811
Closing balance of amounts transferred to DEAF	659,59 6	574,162

1.27. Unhedged Foreign Currency Exposure (UFCE)

Provision held for UFCE as at 31 March 2020 is Rs. Nil (Previous Year: Rs. Nil).

Incremental capital charge held by the Bank for UFCE as at 31 March 2020 is Rs. Nil. (Previous Year: Rs. 33 thousands).

1.28. Liquidity Coverage Ratio (LCR)

The Bank manages funding and liquidity risk through a formal governance structure of India Assets Liability Committee (ALCO). ALCO comprises of senior management of the Bank and meets periodically. The ALCO oversees funding and liquidity position of the Bank and provides guidance and oversight. ALCO is responsible to oversee and ensure compliance with regulatory and internal requirements related to Liquidity risk management. ALCO is assisted in its oversight role by Treasury, Finance, Operations and other Business Units.

The Bank has adopted the Basel III framework on liquidity standards as prescribed by the RBI and has put in place requisite systems and processes to enable periodic computation and reporting of LCR.

The Bank follows the criteria laid down by the RBI for month-end calculation of High Quality Liquid Assets (HQLAs), gross outflows and inflows within the next 30-day period. HQLAs of the Bank primarily consist of Cash, Government of India (GoI) Bonds & Treasury-Bills and Foreign Sovereign Securities. Weighted outflows mainly consist of other contingent funding liabilities. Weighted inflows primarily consist of inflows on account of interbank placements.

(Formerly known as The Royal Bank of Scotland plc - India Branch) (Incorporated in Scotland with Limited Liability)

2.6. Segmental reporting

In terms of the RBI Guidelines on Segment Reporting, business of the Bank is divided into following segments viz. Treasury, Retail Banking and Corporate/Wholesale Banking. The Bank considers below mentioned segments as primary segments. The principle activities of these segments are as under:

Segment	Principal Activities
Treasury	Treasury Operations include investments in Government securities and money market operations, derivatives and foreign exchange operations on the proprietary account and for customers.
Retail Banking	Retail Banking constitutes lending to individuals/small businesses subject to orientation, product and granularity criterion and also includes low value individual exposures not exceeding threshold limit of Rs. 5 crores as defined by the RBI. Retail Banking activities also include liability products.
Corporate/ Wholesale Banking	Corporate/Wholesale Banking include corporate relationships not included under Retail Banking.

(Formerly known as The Royal Bank of Scotland plc - India Branch) (Incorporated in Scotland with Limited Liability)

Income, expenses, assets and liabilities are either specifically identified with individual segments or are allocated to segments on a systematic basis. Support Divisions costs are considered as unallocated.

Revenues of the Treasury Segment primarily consist of interest income on securities, money market operations,. Principal expenses of this segment comprise interest on market borrowings/ Head office borrowings, personnel cost and other direct overheads and allocated expenses. Revenues from the Retail Banking activity are derived from interest earned on loans classified under this segment and fees earned on retail products.. Expenses of the Corporate/Wholesale Banking and Retail Banking activity primarily comprise interest expense on deposits, expenses for operating the branch, personnel costs, other direct overheads and allocated expenses.

Geographical segments

The Branch renders its services within one geographical segment and have no offices or significant assets outside India.

Γ	Description of Continge	nt Liabilities					
	Contingent Liability	Brief Description					
	Claims against the Bank not acknowledged as debts	Includes various legal proceedings and outstanding tax matters in the normal course of business, which are disputed by the Bank.					
	Liability on account of forward exchange and derivative contracts.	The Bank enters into foreign exchange contracts, currency options, forward rate agreements, currency swaps and interest rate swaps with inter-bank participants on its own account and for customers. Forward exchange contracts are commitments to buy or sell foreign currency at a future date at the contracted rate. Currency swaps are commitments to exchange cash flows by way of interest interest/ principal in one currency against another, based on predetermined rates. Interest rate swaps are commitments to exchange fixed and floating interest rate cash flows. Forward Rate Agreements are agreements to pay or receive a certain sum based on a differential interest rate on a notional amount for an agreed period. The notional amount that are recorded, as contingent liabilities are typically amounts used as a benchmark for the calculation of the interest component of the contracts.					
	Guarantees given on behalf of Constituents, Acceptances, Endorsements and other Obligations	As a part of its commercial banking activities, the Bank issues documentary credit and guarantees on behalf of its customers. Guarantees generally represent irrevocable assurances that the Bank will make payments in the event of the customer failing to fulfil its financial or performance obligations.					
	Other items for which the Bank is contingently liable – Others	This includes Deposits transferred to Depositor Education and Awareness Fund.					

2.10. Prior period items

There were no prior period items that have been debited / credited in the current period and previous year's Profit and Loss Account.

For MSKA & Associates For Natwest Markets plc - India Branch

(Formerly known as The Royal Bank of Scotland plc -

ratio including capital conservation buffer and GSIB (capital charge for globally systemic important banks) 283.56%. Banks are required to maintain a capital conservation buffer of 2.50% for the year 2020 comprised of Common Equity Tier I capital above the regulatory minimum capital requirement of 9%. Under Pillar 1 of the RBI guidelines on Basel III, the Bank follows the Standardised Approach for Credit Risk. Standardised Duration method for Market Risk and Basic Indicator Approach for Operational Risk.

Internal assessment of capital

Effective management of the Bank's capital is achieved by supervision of actual capital ratios The Bank's capital management framework also includes a comprehensive internal capital adequacy assessment process (ICAAP) conducted annually. The ICAAP encompasses capital planning for one year time horizon, identification and measurement of material risks and the relationship between risk and capital.

The Bank's capital management framework is complemented by its risk management framework (detailed in the following sections), which includes a comprehensive assessment of material risks.

Stress testing which is a key aspect of the ICAAP and the risk management framework provides an insight on the impact of extreme but plausible scenarios on The Bank's risk profile and capital position. Based on the approved stress testing framework, The Bank conducts stress tests on its various portfolios and assesses the impact on its capital ratios and the adequacy of capital buffers for current and future periods. The Bank periodically assesses and refines its stress tests in an effort to ensure that the stress scenarios capture material risks as well as reflect possible extreme market moves that could arise as a result of market conditions.

Monitoring and reporting

The Management maintains an active oversight over The Bank's capital adequacy levels. On a quarterly basis the capital adequacy position and the risk weighted assets as stipulated by RBI, are reported to the ALCO and MTCo.

b. Capital requirements for various risk areas

As required by RBI guidelines on Basel III, the Bank's capital requirements as at 31 March 2020 have been computed using the Standardised Approach for credit risk, Standardised Duration method for market risk and Basic Indicator Approach for operational risk. The minimum total capital required to be held is 12.5% for credit, market and operational risks. The actual position of various components of capital is given below:

	DF-3: Capital Adequacy		(Rs. In crore
Part	ticulars	31 March 2020	31 March 2019
Α	Capital requirements for Credit Risk	44	52
	Portfolios subject to standardised approach	44	52

	Equity risk	-	_
С	Capital requirements for Operational risk		
	Basic indicator approach	29	9
D	Capital Adequacy Ratio of the Bank (%)	284.10%	313.30%
Е	CET 1 capital ratio plus capital conservation buffer (%)	283.56%	312.76%
F	Tier II capital ratio (%)	0.54%	0.54%

Risk Management Framework:

As a financial intermediary, The Bank is exposed to various types of risks including credit market, liquidity, operational, legal, compliance and reputation risks. The objective of the risk management framework at The Bank is to identify measure, control and monitor as well as manage and report risks in a clear manner and that the policies and procedures established to address these risks are strictly adhered to.

The important aspects of The Bank's risk management are a robust risk approval mechanism, well defined processes and guidelines and an independent internal control mechanism. The risk approval mechanism covers all the key areas of risk such as credit, market and operational risk and is involved in quantification of these risks wherever possible for effective and continuous monitoring

Measurement of risks for capital adequacy purposes

Under Pillar 1 of the extant RBI guidelines on Basel III, The Bank currently follows the Standardised approach for Credit Risk and Standardised Duration approach for Market Risk and Basic Indicator approach for Operational Risk.

Objectives and Policies

The Bank's risk management processes are guided by well defined global as well as local policies appropriate for various risk categories. There is an independent risk team that oversees this function whose oversight is by the regional and global risk offices with periodic independent internal audit reviews

The risk appetite for the Bank in India is determined by the global risk committees based on inputs from the country management.

In addition to the risk management and compliance departments of the Bank, in India, the India Asset and Liability Committee (ALCO) and Governance and Control Committee (GCC) are involved in managing these risks within the Bank's guidelines and regulatory requirements The Group has global policies for Stress Testing to measure impact of adverse stress scenarios on the adequacy of capital which are implemented locally within the Bank.

Structure and Organisation

The Bank. has well established processes for management of all material risks faced by it as outlined above and has a robust risk governance framework comprising of risk committees at the global & India level.

- The key components within the Bank's risk management framework include
- Identification of all material risks that are relevant to the Bank covering all the current activities of the Bank
- Definition of relevant policies defined by the Head Office customised as required to suit local RBI regulations
- Measurement of its key material risks and performs stress testing to assess its position and response strategy in a stress scenario
- Having a robust control environment to monitor whether the various policies and limits

BASEL III - PILLAR III DISCLOSURES AS AT 31 MARCH 2020

Natwest Markets plc - India Branch ("the Bank") is subject to the Basel III framework with effect from 27 February 2017 as stipulated by the Reserve Bank of India (RBI). The Basel III framework consists of three-mutually reinforcing pillars:

- (I) Pillar 1: Minimum capital requirements for credit risk, market risk and operational risk
- Pillar 2: Supervisory review of capital adequacy (II)
- (III) Pillar 3: Market discipline

Market discipline (Pillar 3) comprises disclosures on the capital adequacy and risk management framework of the Bank. These disclosures have been set out in the following sections

The Basel III capital regulations were effective 1 April, 2013 as per RBI guidelines in India.

Scope of Application

The Pillar 3 disclosures, being published in accordance with the requirements of RBI for a branch of foreign bank, do not require the disclosures pertaining to the consolidation of entities.

Natwest Markets plc Group Pillar 3 disclosures are published in accordance with the requirements of the Capital Requirements Directive on the Group Investor relations website www.investors.nwm.com and should be read together with the Group Annual Report and Accounts

To align with the global strategy of its parent, during the year, the India branch re-named itself from The Royal Bank of Scotland plc to NatWest Markets plc. This was duly approved by Reserve Bank of India vide its letter DBR.IBD.No. 10746/23.03.031/2018-19 dated June 24, 2019.

The Bank has filed an application with RBI to close its business and operations with effect from close of business on 31 December 2019 vide letter dated 11 September 2019.

Capital Structure

Summary information on main terms and conditions/features of capital instruments

The Bank's regulatory capital is classified for disclosure according to the RBI capital adequacy requirements. Common Equity Tier-I capital includes Interest free funds received from Head Office.

Tier-II Capital includes country risk provision & Investment reserve account

Capital Adequacy

a. Capital Management

The Bank actively manages its capital position to ensure compliance with regulatory norms

Organisational set-up

The capital management framework of The Bank is administered by the India Asset Liability Committee (ALCO) and the India Governance and Control Committee (GCC) under the supervision of the Management Team Committee (MTCo).

Regulatory capital

The Bank is subject to the capital adequacy norms stipulated by the RBI guidelines on Basel III. The RBI guidelines on Basel III require the Bank to maintain a minimum ratio of total capital to risk weighted assets of 12.5% (including the CCB & GSIB charge), with a minimum Tier-I capital adequacy ratio of 7% and Common equity capital adequacy ratio of 5.5%. The total capital adequacy ratio of the Bank at 31 March 2020 as per the RBI guidelines on Basel III is 284.10% with a Tier-I capital adequacy ratio of 283.56% and Common equity capital adequacy

- are being adequately implemented
- Monitoring & reporting to the senior management on various material risks

The Bank's risk management framework is embedded in the business through the three lines of defence model supported by an appropriate level of investment in information technology and its people. The three lines of defence include the Business, Risk management department and Group Internal Audit. The Three Lines of Defence Policy Standard defines responsibilities and accountabilities of each unit. The three lines of defence are completely independent of each other. Business is independent of Risk which is independent from Group Internal Audit. The country Governance and Control Committee (GCC) and the ALCO are an important aspect of the risk management framework for the Bank

The Cross Divisional GCC is the apex In-Country Risk Governance body established by the Country Executive to manage and oversee the country's aggregate risk exposure and to facilitate consolidated risk management for the NWMNWM group franchise in India. The GCC meets monthly and the senior management of the Bank including heads of all the businesses. operations, support functions and risk functions, participate in the meeting. Cross divisional risk issues are tabled and taken to a resolution under the ambit of the country GCC.

Country ALCO is responsible for managing balance sheet risks within its scope and ensuring all related local regulatory requirements are met on a continual basis. The ALCO is a forum for discussion and making decisions on key strategic, financial, risk, control, operational and governance matters relating to the country's balance sheet, capital, liquidity and funding, nontraded interest rate risk and intra-group limits, subject to policies, limits and targets prescribed by NWM Natwest Markets ALCO.

The Bank has constituted the following senior management level committees from the perspective of risk governance at the India and Group level:

Committee Responsibilities							
Executive Committee (MTCO) The India Management Committee decision-making forum that serves as the Board for the Bank; to overs control execution of strategy of NWMNWM in India. The MTCo meets and is responsible for all policy matters and periodic review of the sam

Its role is to provide leadership of the Group within a framework of prudent and effective controls which enables risk to be assessed and managed. It sets the strategic aims of the Group, ensures that the necessary resources are in place for the Group to meet its obligations, is responsible for the allocation and raising of capital and reviews business and financial performance. The Group Board sets the Group's values and standards and ensures that its obligations to its shareholders and others are understood and met. The Group Board reviews and approves the risk appetite framework and risk appetite targets for the Group's strategic risk objectives. It reviews, and as an appropriate, approves the results of, and actions arising from, Prudential Regulatory Authority and other enterprise-wide regulatory							

 considers longer-term strategic threats to the Group's business operations.

 Group Audit Committee
 The GAC's primary responsibilities, as set out in its terms of reference, are to assist the Group and Bank Boards in discharging their responsibilities in respect of: financial reporting, accounting policy of internal controls; processes

stress tests or other regulatory tests or investigations. The Group Board also

Credit Risk Management Policy

Credit risk considers the ability of a borrower or counter-party to honor commitments under an agreement as any such failure has an adverse impact on the Bank financial performance. The Bank's credit risk management process is independent of the business so as to protect integrity of the risk assessment process and decision making. The global as well as local policies guide the credit risk team to make informed decisions.

Credit rating tools are an integral part of risk-assessment of the corporate borrowers and different rating models are used for each segment that has distinct risk characteristics such as Large Corporate, Small and Medium Corporate, financial companies and project finance.

The credit rating tools use a combination of quantitative inputs and qualitative inputs to arrive at a 'point-in-time' view of the rating of counterparty. Each internal rating grade corresponds to a distinct probability of default. Model validation is carried out periodically at a global level by objectively assessing the accuracy and stability of ratings.

All credit exposures, once approved, are monitored and reviewed periodically against the approved limits.

Customers with emerging credit problems are identified early and classified accordingly. Remedial action is initiated promptly to minimise the potential loss to the Bank.

The exposures to individual clients or counterparty group are based on the internal rating of the borrower as well as group-wide borrowing limits and capped by the regulatory ceiling. In line with the exit strategy of the bank, there are no funded exposures outstanding as of 31

March 2020. The existing credit portfolio is being wound down with very limited residual non funded exposures as on 31 March 2020.

Definition and classification of non-performing assets (NPAs)

RBI guidelines are adhered to while classifying advances into performing and non-performing advances (NPAs) as per RBI guidelines. NPAs are further classified into sub-standard, doubtful and loss assets based on the criteria stipulated by RBI.

Additionally, RBI guidelines on Resolution of Stressed Assets – Revised Framework is also adhered to for classification, reporting and implementation of resolution for stressed assets.

The Bank ensures that prudential guidelines in respect of income recognition, asset classification & provisioning (including restructuring of advances) as specified by the RBI from time to time are adhered to at all times.

6. Credit Risk Mitigation

5.

The Bank uses various collaterals both financial and guarantees as credit risk mitigants. The main financial collaterals include bank deposits. The guarantees include those given by Corporate & Bank.

The Bank reduces its credit exposure to counterparty with the value of eligible financial collateral to take account of the risk mitigating effect of the collateral. To account for the volatility in the value of collateral, haircut is applied based on the type, issuer, maturity, rating and re-margining/ revaluation frequency of the collateral.

7. Securitisation

DF – 7: Securitisation

There were no securitisation transactions entered during the year (Previous year - Nil).

8. Market Risk in Trading Book

Following the business restructuring in previous years there is no more trading desks in NWM PIc. India Branch and hence there is no market risk incurred from trading positions incurred in the branch.

Market risk is the risk to the Bank earnings and capital arising from changes in the market level of interest rates or prices of securities and foreign exchange rates. There is a residual market risk position incurred in the branch from the head office capital fund and the investment of the fund. The Bank adopts a comprehensive approach to market risk management for these residual activities and market risk is governed by the risk policies of the Branch and NWM Group.

Market risk of the branch is managed by the Markets function and with the Market Risk Management function as the second line of defence. Market risk exposures are reported, monitored against limits and analysed daily.

The main market risk measures of the Branch are:

- Value at Risk ("VaR")
- Sensitivities to market risk factors (PV01, XCCY Basis etc.)
- Open FX positions

A full description of the Group's approach to market risk can be found in the Group's 2020 Annual Report and Accounts for market risk disclosure

Market Risk capital charge is calculated using the non-modelled approach, whereby RBI prescribed rules are applied.

- Exercising informed judgement in considering risk in decision making
- Designing, implementing and maintaining effective processes, procedures, controls to identify, measure, report and mitigate risks within risk appetite
- Demonstrating the adequacy and effectiveness of controls and remediate where residual risk is outside of appetite
- Compliance with the letter and spirit of all legal and regulatory requirements and maintenance of records to evidence compliance

2nd Line of Defence – Oversight & Control

The 2LOD primarily comprises roles in the Risk Function. They

- Set the standards for the effective management of risk across the bank and undertake independent oversight and challenge to ensure these are being managed within risk appetite
- Provide expert guidance and direction to the 1LOD in the application of effective risk and control frameworks and consideration of risk in decision making

Second line responsibilities:

Roles in the Risk Function

These set the standards for, and the independent oversight of, the effective management of risk. Activities can include;

- Defining, managing and maintaining risk management frameworks and policies, to inform the effective management of risk in the 1LOD
- Facilitate, aggregate and propose group-wide strategic and material risk appetite statements to be approved by the Group Board and Executive
- Where delegated approve the group wide, legal entity, franchises and functions' risk appetite
- Unrestricted access throughout the Group, providing independent oversight and challenge of the implementation of risk management frameworks, policies and controls within the 1LOD (including legal entities) to manage risks within appetite and within the letter and spirit of all legal and regulatory requirements. This includes
 - Providing guidance, insights and direction to support consideration of risk in decision-making
 - Challenging a proposed decision and provide direction where risks have the potential to exceed risk appetite, breach policy or where risk appetite and controls are inadequately expressed or embedded
 - Imposing controls to support the management of risk within risk appetite
 - Exercising its right and obligation to veto

3rd Line of Defence – Internal Audit

The 3LOD is Internal Audit.

They provide the Board and senior management with independent assurance on the appropriateness of the design and operational effectiveness of governance, risk management and internal controls to monitor, manage and mitigate the bank's material risks.

Third line responsibilities:

Internal Audit remit is unrestricted and provides independent assurance on the appropriateness of the design and operational effectiveness of governance, risk management and internal controls to monitor, manage and mitigate the bank's material risks.

Standard accountabilities for all roles across the Three Lines of Defence:

- To provide management with relevant information on risk, including escalating concerns where appropriate
- For the management and oversight of risk relating to day-to-day activities, including compliance with Our Code, all NWM policies, 'How we manage NWM', and if applicable 'How we manage our Business'
- To display, and evidence where appropriate, those risk practices and behaviours are consistent with a risk culture where "risk is simply part of the way we work and think"
- To work collaboratively across the 3LOD

(Formerly known as The Royal Bank of Scotland plc - India Branch) (Incorporated in Scotland with Limited Liability)

With regards to the above framework, it must also be noted that all the three lines of defence are completely independent of each other

The Operational Risk Handbook provides the direction for delivering an effective operational risk management. The objectives is to protect the Group from financial loss or damage to its reputation, its customers or staff and to ensure that it meets all necessary regulatory and legal requirements

The operational risk management is supported by several key operational risk management techniques such as

- Risk assessments: business units identify and assess operational risks to ensure that they are effectively managed, prioritised, documented and aligned to risk appetite
- Risk Event and Loss data management: each business unit's internal loss data management process captures all operational risk loss events above certain minimum thresholds. The data is used to enhance the adequacy and effectiveness of controls, identify emerging themes, enable formal loss event reporting and inform risk and control assessments and scenario analysis.

Escalation of individual events to senior management is determined by the seriousness of the event.

Risk Issues Management: This process ensures that operational risk issues are captured 3. and classified consistently, and that there is robust governance over their closure and acceptance

Reporting forms an integral part of operational risk management. The Group's risk management processes are designed to ensure that issues are identified, escalated and managed on a timely basis. Exposures for each division are reported through monthly risk issue reports, which provide detail on the risk issues and action plans.

Events that have a material, actual or potential impact on The Bank's finances, reputation or customers, are escalated and reported to divisional and Group executive

Policies for mitigating risks

The objective of operational risk management is not to remove operational risk altogether, but to manage the risk to an acceptable level, taking into account the cost of minimising the risk with the resultant reduction in exposure. Strategies to manage operational risk include avoidance, transfer, acceptance and mitigation by controls.

Each business unit must manage its operational risk exposure within an acceptable level. testing the adequacy and effectiveness of controls and other risk mitigants regularly and documenting the results. Where unacceptable control weaknesses are identified, action plans must be produced and tracked to completion

DF – 9: Approach for Operational Risk Capital Assessment

As per the RBI guidelines on Basel III, The Bank has adopted Basic Indicator approach for computing capital charge for operational risk. The capital required for operational risk at 31 March 2020 was 29 crores

Interest Rate Risk in the Banking Book (IRRBB)

Risk management framework for Interest Rate Risk in the Banking book (IRRBB) also referred as Non-Trading interest Rate Risk (NTIRR) covers the interest rate risk outside the interest rate trading business

The branch holds interest rate sensitive assets and liabilities on its Balance sheet. IRRBB or NTIRR arises where there is potential for changes in benchmark interest rates to result in a movement in bank's future income.

Governance framework

India ALCO is responsible for evolving appropriate systems and procedures for identification and analysis of various balance sheet risks including IRRBB or NTIRR and laying down parameters for efficient management of these risks. India ALCO comprises of senior management of The Bank and meets periodically. The ALCO focuses on setting interest rate risk appetite by setting limits on relevant indicators, which positively contributes to optimising the balance sheet structure and Net Interest Income (NII) over time, while limiting the susceptibility to interest changes. ALCO periodically monitors risk positions of the branch, ensures compliance with regulatory requirements and internal limits and provides strategic guidance for management of the IRRBB or NTIRR.

Measurement

The branch uses the following tools for managing interest rate risk:

- Gap analysis: The interest rate gap or mismatch risk is measured by calculating gaps over different time intervals as at a given date. This static analysis measure mismatches between rate sensitive liabilities (RSL) and rate sensitive assets (RSA). The report is prepared monthly by grouping rate sensitive assets, liabilities and off-balance sheet positions into time buckets according to their residual/behavioural maturities or next repricing periods. The difference between RSA and RSL for each time bucket signifies the gap in that time bucket. The direction of the gap indicates whether net interest income is positively or negatively impacted by a change in interest rates and the magnitude of the gap helps in finding out the change in net interest income for any given interest rate shif
- Earnings at risk (EaR): The interest rate gap report mentioned above indicates whether the branch is in a position to benefit from rising interest rates by having a positive gap (RSA > RSL) or whether it is in a position to benefit from declining interest rates by having a negative gap (RSL>RSA). EaR measures the change in NII over a one year time horizon for various levels of parallel shift in interest rates
- Economic value: Change in the interest rates have a long-term impact on the capital position of the branch, as the economic value of the Branch's assets, liabilities and offbalance sheet positions get affected by these rate changes. The branch applies modified duration approach and monitors impact of various levels of parallel shift in interest rate curves on the capital position
- **PV01**: PV01 measures the impact on economic value of a 1 basis point (0.01%) change in interest rates. The branch also uses PV01 limits to manage IRRBB or NTIRR

Details of increase in earnings and economic value for upward and downward rate shocks, assuming parallel shift in the interest rate curves (basis points), based on the local currency positions are given below:

General Disclosure for Exposures Related to Counterparty Credit Risk

Methodology used to assign economic capital and credit limits for counterparty credit exposures

Counterparty credit risk is covered by the Group's credit risk framework and there are policies which apply to OTC derivatives and repo products addressing documentation requirements, product-specific requirements, counterparty specific requirements, issuer risk, margin trading, collateral etc.

Counterparty exposure is calculated per each Counterparty based on The Bank approved exposure calculation methodology. The exposure takes into account of mark-to-market and potential future exposure of each trade, as well as Bank's netting/collateral opinion to the governing master agreement. Where there is a collateral agreement with clear collateral opinion in place, collateral held/posted is also used in the exposure calculation.

Policies for securing collateral and establishing credit reserves

The group credit policy framework governs counterparty credit risk management requirements where legal and administrative capacity of counterparties to enter into collateral agreement is assessed. The policy framework establishes minimum documentation requirements under collateral agreements including thresholds, minimum transfer amounts, haircuts, collateral eligibility criteria and collateral call frequency. Where netting and/or collateral enforceability criteria are not fulfilled, exposure is assumed to be un-collateralised.

Policies with respect to Wrong-way risk (WWR) exposures

Wrong-way risk exposures are also governed by the group policy framework. WWR arises when the risk factors driving the exposure to counterparty are adversely correlated with the creditworthiness of that counterparty, i.e. the size of the exposure increases at the same time as the riskiness of the counterparty increases. Bank recognises two different types of WWR - Specific WWR and General WWR.

Specific WWR arises when the exposure on transactions is by virtue of economic dependence or ownership i.e. 'self-referenced', to the counterparty. General WWR is further classified as (a) Currency Risk and (b) Correlation Risk. Currency risk arises when counterparty is correlated with a macroeconomic factor which also affects the exposure. Correlation Risk arises when the exposure on the transaction is correlated with the counterparty's creditworthiness for a reason that is specific to the counterparty. Bank monitors and manages the wrong-way risk in accordance with the group wide policy framework.

Collateral required in the event of a credit rating downgrade

The Group calculates the additional collateral it would be required to post in the event of its credit ratings being downgraded by one or two notches. The Bank follows the group-wide policy framework on collateral requirement in the event of credit rating downgrade.

The Bank has not entered into any Derivative transaction during the year.
